SUMMARY

Second year B. Tech student in Artificial Intelligence and Machine Learning with hands-on project experience in Python development and web applications. Skilled in Python, Angular, and core computer science fundamentals like Data Structures. Seeking opportunities in software development and AI-driven applications.

EDUCATION

Christ (Deemed to be University)

B. Tech in Artificial Intelligence and Machine Learning

Bengaluru, Karnataka

April 2024 - Current

PROJECTS

Fix Lens (AI-Powered Appliance Repair Assistant)

- Built an AI-driven application that diagnoses home appliance issues using text and image analysis
- Generated step-by-step repair guidance, required tools, cost estimates, and severity assessment for informed decision-making
- Developed a full-stack system enabling real-time interaction and continuous user support throughout the repair process

Restaurant Menu and Ordering System (Angular & TypeScript)

- Developed a responsive restaurant ordering web application using Angular and TypeScript.
- Implemented dynamic menu display, cart management, and real-time price calculation.
- Integrated backend APIs with modular routing to ensure smooth order processing.

Automatic Object Detection Sensor Car

- Developed a sensor-based autonomous car capable of real-time obstacle detection and automatic navigation.
- Programmed microcontroller logic to process ultrasonic/IR sensor data for collision avoidance.
- Integrated motor driver control with embedded system design to ensure safe and efficient movement.

Daily Task Check & Timetable Management System (Visual Studio)

- Developed a timetable and task tracking application using Visual Studio.
- Implemented task completion logic that moves finished tasks to a "Done" list.
- Designed a simple interface with real-time task status updates.

SKILLS

Programming: Python, SQL, C, C++

Web Technologies: HTML, CSS, Angular

Tools: VS Code, Bash, Git

Concepts: Object Oriented Programming, Data Structures, Database Management System, Computer Networks

Languages: English (Fluent), Hindi (Fluent), Kannada (Native)

Certifications

- Artificial Intelligence and Machine Learning in Materials Engineering– NPTEL
- Essentials of Cloud Computing– Infosys Springboard
- Introduction to Data Science – CISCO Networking Academy
